1	Open the HAMK homepage	URL: https://www.hamk.fi/en/	Website opens successfully	As expected	Pass	
2	Scroll to “Latest News” section	N/A	Section visible	As expected	Pass	
3	Click each category (Info, News, Press Releases, Stories, Student Voice)	N/A	Articles load for each category	As expected	Pass	
4	Click the first article in each category	N/A	Opens related article page	As expected	Pass	
5	Verify page contains topic text	N/A	Correct topic displayed	As expected	Pass	

Post-conditions:

Users can successfully navigate through all “Latest News” categories and access related articles.

Project Name: HAMK Website Automation Testing

Test Case: 02

Test Case ID: TC_UI_2

Test Priority (Low/Medium/High): High

Module Name: Search Feature

Test Title: Verify Search Feature from Main Page

Description: Tests that the search function works correctly when searching for “services” and that the clicked result leads to a matching page.

Test Designed by: Muntasir

Test Designed date: 12.10.2025

Test Executed by: Muntasir

Test Execution date: 12.10.2025

Pre-conditions: Browser and internet connection available & HAMK site accessible.

Dependencies:

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Open the HAMK homepage	URL: https://www.hamk.fi/en/	Page loads	As expected	Pass	
2	Click Search icon	N/A		As expected	Pass	
3	Type “services” in search box	services		As expected	Pass	
4	Store the first result text	N/A		As expected	Pass	
5	Click the first result	N/A		As expected	Pass	
6	Verify opened page contains stored text	N/A		As expected	Pass	

Post-conditions:

Search results show relevant links, and navigation to result page works correctly.

Project Name: HAMK Website Automation Testing

Test Case: 03

Test Case ID: TC_UI_3
Test Priority (Low/Medium/High): Med
Module Name: Screenshot Feature
Test Title: Capture First Article Image
Description: Robot takes a screenshot of the first image element from a specified article page.

Test Designed by: Muntasir
Test Designed date: 13.10.2025
Test Executed by: Muntasir
Test Execution date: 13.10.2025

Pre-conditions: Page with images must load successfully
Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Navigate to Experts at Your Service page	URL	Page loads	As expected	Pass	
2	Locate first image in article	XPath	Image found	As expected	Pass	
3	Take screenshot of image	File name: first_picture.png	Screenshot saved	As expected	Pass	

Post-conditions:
Screenshot image stored locally for verification.

Project Name: HAMK Website Automation Testing

Test Case: 04

Test Case ID: TC_UI_4

Test Priority (Low/Medium/High): High

Module Name: Contact Page

Test Title: Navigate to Contact Page and Search Lecturer

Description: Verifies navigation from “About Us” to “Contact Us,” and searches for a lecturer by name.

Test Designed by: Maruf

Test Designed date: 13.10.2025

Test Executed by: Maruf

Test Execution date: 13.10.2025

Pre-conditions: Website accessible & Lecturer data available on HAMK site.

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Navigate to About Us and then to Contact Us	N/A	Contact page opens	As expected	Pass	
2	Click “Search experts”	N/A	Expert search page loads	As expected	Pass	
3	Enter lecturer name in search field	Esa Huiskonen	Lecturer result displayed	As expected	Pass	
4	Click “More information”	N/A	Lecturer profile opens	As expected	Pass	

Post-conditions:

User can view lecturer profile from contact section.

Project Name: HAMK Website Automation Testing

Test Case: 05

Test Case ID: TC_UI_5

Test Priority (Low/Medium/High): High

Module Name: Lecturer Page Validation

Test Title: Verify Lecturer Name in Header

Description: Confirms that the lecturer profile page header matches the searched lecturer name.

Test Designed by: Maruf

Test Designed date: 13.10.2025

Test Executed by: Maruf

Test Execution date: 13.10.2025

Pre-conditions: Lecturer profile is accessible

Dependencies: Depends on TC_UI_4

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Navigate to Search People Page	Esa Huiskonen	Lecturer appears	As expected	Pass	
2	Click "More information"	N/A	Opens lecturer profile	As expected	Pass	
3	Verify header text matches lecturer name	N/A	Header equals "Esa Huiskonen"	As expected	Pass	

Post-conditions:

Header text accurately reflects lecturer name from search.

Project Name: HAMK Website Automation Testing

Test Case: 06

Test Case ID: TC_UI_6

Test Priority (Low/Medium/High): Med

Module Name: Language Switch

Test Title: Verify Language Switch Works

Description: This test verifies that the language changed from English to Finnish on the HAMK homepage.

Test Designed by: Muntasir

Test Designed date: 14.10.2025

Test Executed by: Muntasir

Test Execution date: 14.10.2025

Pre-conditions: Browser installed and functioning, Internet connection stable & English version of HAMK homepage accessible

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Open the HAMK homepage	https://www.hamk.fi/en/	Page opens in English	As expected	Pass	
2	Locate and click Finnish language button	N/A	Page switches to Finnish	As expected	Pass	
3	Verify Finnish keyword "Koulutus" appears	"Koulutus"	Confirms successful language switch	As expected	Pass	

Post-conditions:

Website successfully changes from English to Finnish.

Project Name: HAMK Website Automation Testing

Test Case: 07

Test Case ID: TC_UI_7

Test Priority (Low/Medium/High): Med

Module Name: Student Instructions Page

Test Title: Open New Student Instructions

Description: This test navigates to “New Student Instructions” from the homepage and verifies that “Start Your Studies Here” opens successfully.

Test Designed by: Muntasir

Test Designed date: 14.10.2025

Test Executed by: Muntasir

Test Execution date: 14.10.2025

Pre-conditions: HAMK homepage is accessible & User can scroll and click page links

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Open HAMK homepage	URL: https://www.hamk.fi/en/	Homepage loads correctly	As expected	Pass	
2	Scroll to bottom of the page	N/A	Footer and student links visible	As expected	Pass	
3	Click “New Student Instructions” link	N/A	Page opens successfully	As expected	Pass	
4	Click “Start your studies here”	N/A	Redirects to studies page	As expected	Pass	
5	Verify text “studies” appears on page	“studies”	Confirms correct page opened	As expected	Pass	

Post-conditions:

User successfully navigates to the study instructions section.

Project Name: HAMK Website Automation Testing

Test Case: 08

Test Case ID: TC_UI_8

Test Priority (Low/Medium/High): High

Module Name: Study Options

Test Title: Explore Study Options – Computer Applications

Description: Tests navigation to “Search Study Options”, selecting the “Computer Applications” degree programme, and scrolling through the page content.

Test Designed by: Muntasir

Test Designed date: 14.10.2025

Test Executed by: Muntasir

Test Execution date: 14.10.2025

Pre-conditions: Internet and browser active & Website content fully loaded

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Open HAMK homepage	URL: https://www.hamk.fi/en/	Homepage loads successfully	As expected	Pass	
2	Click “Search study options”	N/A	Navigates to study search page	As expected	Pass	
3	Scroll to find degree programmes	N/A	Programme list visible	As expected	Pass	
4	Click “Computer Applications”	N/A	Programme page opens	As expected	Pass	
5	Scroll slowly through the programme page	N/A	Page scrolls smoothly and displays content	As expected	Pass	
6	Verify “Computer Applications” text visible	“Computer Applications”	Confirms correct programme displayed	As expected	Pass	

Post-conditions:

User can view and interact with the “Computer Applications” study page successfully.

Project Name: HAMK Website Automation Testing

Test Case: 09

Test Case ID: TC_UI_9

Test Priority (Low/Medium/High): Med

Module Name: Navigate to a certain part of a webpage

Test Title: Find Finnish Skills Requirements for Scholarship

Description: To verify that users can successfully navigate from the HAMK homepage to the scholarship section and access the Finnish language skills requirements for bachelor students.

Test Designed by: Maruf

Test Designed date: 14.10.2025

Test Executed by: Maruf

Test Execution date: 14.10.2025

Pre-conditions: Browser is launched and cookies are accepted . User starts from the homepage

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Navigate to HAMK homepage	URL: https://www.hamk.fi/en/	Homepage loads successfully	As expected	Pass	
2	Accept cookies if present	N/A	Cookie banner disappears	As expected	Pass	
3	Click "Come to study" button	N/A	Dropdown menu appears	As expected	Pass	
4	Click "Scholarships and tuition fees"	N/A	Redirects to scholarships page	As expected	Pass	
5	Locate and click "Scholarship based for the Finnish skills: Bachelor students"	N/A	Dropdown expands to show requirements	As expected	Pass	

Post-conditions: User can find Finnish skills requirement for scholarship.

Project Name: HAMK Website Automation Testing

Test Case: 10

Test Case ID: TC_UI_10

Test Priority (Low/Medium/High): High

Module Name: Research page is accessible and playable

Test Title: Run a video

Description: This test navigates from the homepage through the Research Page, locates the first YouTube video container, and successfully play the video

Test Designed by: Maruf

Test Designed date: 14.10.2025

Test Executed by: Maruf

Test Execution date: 14.10.2025

Pre-conditions: Hamk Homepage loaded successfully & dropdown must be successful to found research page

Dependencies: None

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Notes
1	Navigate to HAMK homepage and Accept cookies	URL: https://www.hamk.fi/en/	Homepage loads successfully	As expected	Pass	
2	Click "Research" navigation button	N/A	Found "Research" from dropdown	As expected	Pass	
3	Click "Research" link from dropdown	N/A	Research page loads	As expected	Pass	
4	Scroll down Research page	N/A	Video section becomes visible	As expected	Pass	
5	Find and play first YouTube video	N/A	Video starts playing	As expected	Pass	

Post-conditions: User can scroll through the research page and play YouTube video to see the content.
